

FLOWER SHOW IS NOW OPEN.

A BEAUTIFUL EXHIBITION IN SHATTUCK HALL.

First Annual Show Given by the Berkeley Floral Society.

The first show of the Berkeley Floral Society opened yesterday, in Shattuck Hall, and will remain open today and tomorrow, including the evenings. The show is a most attractive one, over \$250 having been spent to make the exhibit worthy of beautiful Berkeley.

The credit for the show belongs entirely to the Floral Society and especially to the following committee of arrangements:

Professor W. C. Blasdale, chairman, A. C. Alexander, W. H. Smythe, M. Stevenson, Mrs. Wattles, Mrs. Seabury, Mrs. Smythe, Colonel C. R. Greenleaf, Anson, Styles Blake.

Music by Leone Band of San Francisco, play from 8 to 10 every evening.

Amongst the noted exhibition is one by Mr. George Tyler, of Alameda, who shows Pelargoniums, including 200 varieties.

Mr. Sanborn, of Oakland, has a very large exhibit of palms and decorative plants.

The display by amateurs is especially remarkable for the universal fine exhibit of roses.

A printed souvenir will be distributed free, which contains an account of the society and the work it is doing in Berkeley, and a very large amount of valuable information on the subject of gardening, particularly as applied to the conditions here.

There will be music during the evening from eight to ten o'clock, by the Leone Band of San Francisco.

BOYD READY TO RECEIVE THE PRINCE.

MISTER EDITOR:—Yes I knew it. I could feel it in every bone in my tenderloin. I have begged and begged our Town Trustees to get ready for distinguished visitors, but no, there was no such a word as hurry in their dictionaries, and now see the fix we are in!

I am led to make the above remarks by reading the following item in a late San Francisco paper, in reference to Prince Albert of Belgium, who is now visiting that city: "Some day this week the Prince, with his traveling companions, will visit the University of California."

Yes, of course he will come. Some day this week, too. No chance to get Shattuck avenue in decent shape, no time to get the weeds out of the Park. Oh, I beg your pardon, Mr. Editor, you forbade me to ever mention or make fun of the park again, as you said you did not want to hurt the feeling of the Park Commissioners. But, Mr. Editor, when I receive the Prince at Berkeley station and his Royal Highness says in a cheery voice "Hello B—How's things?" how will I feel? Why I'll melt in despair. I won't dare to face his Royal nibs with 477 cement barrels scattered around the station, with the street torn up, with piles of sand and mortar banked up in front of Schmidt's new building, with a row of idle express wagons around the station, showing that his is badly dilapidated.

But there is yet hope, if I can get Professor Waterman to have the fe-

male classes of the High school turn out and make a line on each side for H. R. H. and your humble servant to pass through, he will be so pleased at looking at their pretty faces that he won't have time to look at the street. And then if I can get Fred Gillett to wash his face and stand behind me as valet de chambre, and the U. C. cadets turn out and present arms as we pass through their ranks, have Sam Wakeman present the freedom of the city to his royal highness, and keep Officer Coey out of sight, all may go off well and my aching heart be relieved.

How proud I shall be as I conduct our distinguished visitor through the beauty spots of our beautiful city, such as the dog pound, the morgue, Ah Sing's wash house and one or two "speak easys," and invite him to quench his thirst in a flowing bowl of city water.

JOHN E. BOYD.

HERE IS A YELLOW DISPATCH.

The following is a copy of a dispatch in the San Francisco Report of last night:

"Berkeley Defense."

BERKELEY, Apr. 28.—This city is now unprotected and Spanish warships would have Grizzly Peak and Strawberry Creek at their mercy. Uncle Sam has recalled the six pieces of artillery he loaned the University battalion for practice. They were sent to Oakland preparatory to being shipped to Rock Island III."

DRILL BEFORM A LARGE CROWD.

THE UNIVERSITY WAR DEPARTMENT ANNUAL DAY.

Company "G" Wins the Banner After a Close Competition.

There was an unusually large attendance at the annual review and competition drill at the University yesterday. It seemed that the war had aroused interest in things military and the whole exercises of the day were carried off with unusual perfection. General Houghton, one of the regents, stated that the drill was the best he had seen.

The competition in drill, for the honor of carrying the silk banner during the next college year, was won by company G, which was closely pressed by Company D. The members of the victorious company are as follows:

Captain, V. H. Craig; 1st Lieutenant, W. Gibbons; 2nd Lieutenant, W. T. Moody; 1st Sergeant, J. F. Conklin; Sergeants, R. C. Daniels and F. M. Simpson; Corporals, Kuater, Garrison, Tupler, Sontback, Miller, Woodsum, Williams and Phelps; Privates, Black, Bentz, Burd, Boke, Bradles, Bun, Burchalter, Baird, Cross, Chamberlain, Davis, de Urinella, Evans, Fay, Good, Haggard, Hicks, Hyde, Judell, Knowles, Masters, Morris, McKinley, Moore, Nichols, Perrin, Robertson, Rockhold, Southard, Sammet, Stephenson and Whiffle.

During the review, Lieutenant Sidney A. Cloman was in command, assisted by Field and Staff Major M. Dozier, Adjutant E. W. Stadtmuller and Sergeant-majors T. W. McPherson and R. Fryer. The first battalion was composed of companies C, E, G and H, commanded by Captains L. H. Millee, A. L. Giacomini, V. H. Craig and P. R. Thayer. Companies A, B, D and F composed the second battalion. The Captains were C. Wigmore, J. W. Millar, H. T. Peart and A. N. George.

Tomorrow the four Presbyterian Sunday schools will visit Bath Beach. The C. U. and F. caps have made a round trip rate of five cents for all members of these Sunday schools. Every thing has been done to make the little folks enjoy themselves on that day. Bathing is delightful this weather, and it is expected that there will be a large crowd out.

FELL FROM A LUMBER PILE.

A LITTLE GIRL TUMBLES TWENTY-FIVE FEET.

Alice Holtum, a Girl Aged Eight Years, Severely and Perhaps Fatally Injured.

Alice Holtum, the eight year old daughter of Fred Holtum, of 2015 Stewart street, is at the point of death as a result of a fall she sustained Wednesday while playing with some companions at the yards of the Pacific Lumber Company.

The little girl fell twenty-five feet. It is thought that she sustained internal injuries that will prove fatal.

The accident occurred while the unfortunate child, with a number of companions, was climbing on the piles of lumber near Dwight way station. The children had a plank from one pile to another at an elevation of twenty-five feet. The young Holtum girl tried to walk across it and lost her balance. She fell to the ground and lay unconscious.

The injured girl was removed to her home and Dr. F. R. Woolsey was summoned. Later Dr. Eastman was also in attendance. Grave fears are entertained for the life of the sufferer.

UNIVERSITY MISCELLANY.

BY J. B. SOUTHAUD.

Yearly examinations began at the University on Thursday, to continue until Tuesday, May 10th.

Miss Clotilde Grunsky, '98, has been elected President of the Associated Students of the University.

Henry W. Stuart, U. C. '94, has been honored by a fellowship in philosophy at the Washington University of St. Louis.

Farmers' Institutes have been held by the Agricultural Department during the week at Bakersfield and in eastern Fresno.

On Wednesday the Senior Class of the Department of Decorative and Industrial Art was given an informal reception in the new East Hall.

Professor W. B. Rising of the Department of Chemistry, left on Monday for Vienna, where he will attend the chemists' third annual convention.

The two cannon of the artillery corps of the college cadets were taken from the University on Wednesday to be sent to the United States Arsenal at Rock Island, Ill.

The election of captain of the Varsity track team has been postponed until next fall. W. P. Drums is looked upon as likely to succeed Captain Everett J. Brown. Officers of U. C. Athletic Association will not be chosen until next term also.

The campus was crowded with spectators on Thursday who came to witness the annual review of the University battalion. Instead of Colonel G. H. Burton, who has just been ordered to the front, Major Field, acting Inspector-General of the Department of California of the United States army, was the reviewing officer.

The executive committee of the Athletic Association at its meeting yesterday morning conferred the right to wear the "Big C" upon the following athletes, winners in the events of last Saturday's field day with Stanford: Roy Woolsey,

sprinter and shot putter; N. G. Guiberson, shot putter and hammer thrower; C. W. Peck, weight man; C. R. Hinz, sprinter; W. F. Carpenter, runner, and W. E. Dawson, hurdler.

A summer school of surveying is being arranged at the University. Fifty men have qualified, the camp to be the largest ever before organized. The students will conduct their work in the hill district near Calistoga. They will be gone about a month.

Last Saturday was a red letter day of victories for California. In the morning Stanford was defeated on the tennis courts; in the afternoon on the track and field by a score of 98 to 38, and in debate in the evening. The winning debating team won for the Blue and Gold the silver trophy cup offered by the Examiner to the university first winning three debates.

The Executive Committee of the Intercollegiate Athletic Association on Tuesday suspended for two years E. J. Brown, Manager of the University of California Athletic team. Brown made statements in a public address before the students reflecting on the amateur status of eastern college athletes, and at the next annual meeting of the association the committee will recommend the expulsion of Berkeley's athletic censor.

A combination concert of the three musical clubs of the University was successfully given at the Unitarian Church, Alameda, on Thursday evening. Beside the prominence of the glee, mandolin and banjo clubs, solos were rendered by Otto Wedemeyer, C. R. Morse, Edward Hunter and the Berkeley Quartet. Twenty of Alameda's most prominent society ladies acted as hostesses, and a party was given at the close of the concert by Mrs. F. W. McCormick in honor of the students.

Berkeley has entered fifteen men for the Pacific Coast championship field day on the Olympic Club track in San Francisco this afternoon. They are: Broughton, 100-yard dash and broad jump; Carpenter, half mile and mile run; Dawson, 120-yard and 220-yard hurdles; Drum, 100-yard and 220-yard dashes; Greisberg, hammer-throw and shot put; Guiberson, hammer-throw and shot put; Hinz, 440-yard dash; Hoffman, pole vault; Jackson, mile run; Mumma, pole vault; Peck, shot-put; Tolman, half-mile run; Westerfeld, mile walk; Walsh, mile walk; Woolsey, 440-yard dash and shot-put.

Colonel Charles R. Greenleaf, honorary professor of military hygiene in the University, on Tuesday evening left Berkeley for Washington, where he has been ordered to report to General Miles for duty. Colonel Greenleaf has been appointed chief surgeon of the army in the field.

PRESBYTERIANS' NEW PIPE ORGAN.

A SPLENDID INSTRUMENT BEING PUT IN PLACE.

One of the Finest Organs in California Secured for Berkeley.

The great pipe organ in the course of construction at the First Presbyterian Church is nearing completion. Mr. Thomas W. Whalley of this city, who has been in charge of the rebuilding of this instrument, is most enthusiastic in his description of it, and unprejudiced critics declare that it will undoubtedly be the finest organ this side of San Francisco and north of Los Angeles.

It will be remembered that this organ in its original state was purchased by the Berkeley church from Trinity Church, San Francisco, in November of last year. Since that time it has undergone a complete reconstruction at the hands of Mr. Whalley. Not a detail has been overlooked in the effort to modernize the instrument, to enlarge its usefulness and beautify its tone. Great credit is due to the builder, not only for his ingenuity in accommodating the organ to its present quarters, at first a seemingly impossible task, but also for the conscientious and thoroughly workmanlike manner in which the work has been done, the instrument will be a credit to the city indeed.

The organ committee of the church is preparing for a grand organ recital, which bids fair to be one of the greatest musical events which Berkeley has seen. Dr. H. J. Stewart of San Francisco will preside at the organ. This announcement in itself is sufficient to insure an overflowing audience. Yet another treat is in store for those attending the opening organ recital, which will take place on May 9th. Mrs. Annie Montague Turner, prima donna, has been secured as soloist for the occasion. By popular consent Mrs. Turner's voice ranks with those of Melba and Nordica. Monday, May 9, 1898, should be a red letter day in the annals of Berkeley.

Make certain of having plenty of water during the summer by engaging Lopez & O'Neill to dig a well for you. Headquarters, George Schmidt's real estate office, Berkeley station.

SCHOOL SUPERINTENDENTS FAVOR BETTER TEXT BOOKS.

At Wednesday's session of the Superintendents, at Sacramento, the committee on Text-Books made the following report:

"That we believe in a uniform series of text-books for the entire State.

"That the present system of providing text-books for use in the public schools of California is not satisfactory, in that it has failed from a point of usefulness to furnish good text-books in the various subjects for the schools of the State.

"We do not wish to dictate as to the method of providing for the mechanical work required in producing our school text-books, but as educators we deem it our duty, in behalf of the children of the State, to demand that provision shall be made by which the best books possible should be procured at a reasonable expense.

"We believe that the inefficiency of the present series of State school text-books is due to the system of compilation.

"We therefore respectfully ask the Legislature, in behalf of the 300,000 children of our State, to make such changes in our present law, either by submitting an amendment to the Constitution or by legislative enactment, as shall compel the State Board of Education to purchase in the open market the copy-right of satisfactory school text-books.

"In the absence of legislation as set forth above, we recommend that section 1874 be amended to read as follows:

"Section 1874—Second—No change of text-books must be made at any other time than in the months of April, May or June of the year in which the changes shall be made to take effect until the beginning of the school term commencing after the 30th day of June of that year, and no books other than those published by the State shall be adopted by the Board of Education of any county, city, or city and county as text-books in any of the public schools of this State in the subjects of reading,

arithmetic, English grammar, orthography, geography, United States history, physiology and civil government, provided that supplementary books in these subjects may be recommended by said Board of Education to supply existing deficiencies in the series of State text-books, and providing further that said supplementary books be furnished to the pupils of the various school districts of the State free of charge.

POWDER WORKS DISASTER.

The cause of the explosion is not fully settled. There are those who think some one from a lumber schooner is responsible for the act. Eleven bodies have been taken from the ruins, and it seems only ten have been identified, but correct identifications in such cases is very difficult. It is hardly probable any man would arrange such an explosion in a way to destroy himself. The judgment of those best acquainted with the works and the disaster think that it was purely an accident.

The loss financially will reach \$75,000. The buildings were strong and plain. It is impossible to tell how much powder exploded, but it is not as much as was at first supposed, for the powder was being sent away for government use as rapidly as possible. It was the explosion of the nitro-glycerine that caused the heaviest shock. The powder company never makes its financial loss public after an explosion, but immediately goes to work to build stronger and better than before. In addition to the loss of the machinery and buildings must be included the wood used for making charcoal, amounting to about \$18,000.

COLORADO, the home of the free silver propaganda, is rapidly increasing her gold output, the work of the present year indicating that the total production for 1898 will show a gain of over \$8,000,000, or 40 per cent increase over last year. If the other gold fields of the world increase their output at a corresponding rate the addition to the gold of the world during 1898 will be at the rate of over a million dollars a day.

How easily some people own the earth. When a great daily, of the Monarchist stripe, gets a correspondent out aboard a ship or train for a special service, it owns the whole outfit. There is nothing like gall, except more gall.

THE WATER QUESTION.

The water question in California is the leading one, this year at least. The dry season, following a succession of seasons of decreased rainfall, is testing most thoroughly the fountain heads of all supplies. Not only are irrigation systems short, but those of cities and towns are becoming short and the supply often inferior. Berkeley is strictly in the list of the limited supply, and rated low in quality. New developments are being made, at least attempted, and there is hope for something better. But hope is not just what one wants when thirsty. A good and sufficient water supply is the main question in building up cities and towns; people looking for locations are not going to be misled on the water question as they were in boom times. It will take a great many other good things to overcome bad water. It is reported that some citizens are favoring consolidation with Oakland in the hope of getting a better water system. Just how that will improve the arrangement is not so clear as it might be. But there must come some solution of the water question, sooner or later, and hundreds of citizens are ready to say, the sooner the better.

NAMING GRANT FOR SENATOR.

The U. S. Grant Club of San Diego is presenting the name of Mr. Grant as a candidate for United States Senator. The club is composed of influential Republicans and they make the plea, first, of location, claiming that portion of the State is entitled to the position of Senator. The statement is made by the club committee that "the availability of Mr. Grant, from a political standpoint, is not embraced in his being the son of the man who led the Union forces through the Wilderness and to Appomattox Courthouse. It rests upon his own faithful, life-long and unwavering service to the Republican party; upon his perfect freedom from political entanglement of any kind; upon his ability to serve this State intelligently and efficiently; and upon his personal fitness to represent in the true sense, the masses of the people of the United States, and particularly of this commonwealth."

Now that the guns have been taken away from the University grounds, Berkeley has no means of protection or defense, except a few sky-rockets left over from the Freshman Wake, and Boyd standing guard over the Shattuck avenue park. Why not petition Uncle Samuel to station the Monterey at West Berkeley wharf?

An item is going the rounds that a soap factory at Los Angeles is buying horses at a dollar a piece to make up into soap; the low price of horses being caused by scarcity of pasture. In that case a rancher can take his horse to the factory and carry home twenty bars of soap, even if he has to hire a livery team. It don't pay to feed a dollar horse on twenty-five dollar hay, hence the soap-makers harvest.

Helping Others.

If any little word of ours
Can make one life the brighter
May unkind one heart the lighter
God help us speak that little word
And take our bit of singing
And drop it in some lonely vale
To set the echoes ringing.

If any little word of ours
Can make one life the sweeter
If any little word of ours
Can make one step the lighter
If any little word of ours
Can make one heart the brighter
God give us love and grace and strength
To help along each other!

If any watchful thought of ours
Can make some work the stronger
If any cheery smile of ours
Can make its brightness longer
Then let us speak that thought today
With tender eyes a glowing
So God may grant some weary one
Shall reap from our glad sowing.

"JOHN DOE, NO. 30."

That is How He Is Registered, but He
Says His Name Is "Patsy."

According to its twenty-third annual
report, the Society for the Prevention
of Cruelty to Children picked up only
one child in this city last year that
could not be identified either at the
time when it fell into its hands or since,
and the youngster still figures on the
records as "John Doe, No. 30."

The boy was found at Elizabeth and
Canal streets at 9:30 o'clock on night of
July 28, 1897. The police sent out the

"PATSEY," WHOM NOBODY OWNS.
usual notice about him, placing his age
at 8 years. Nobody coming to the sta-
tion to claim him within the prescribed
time, he was committed by one of the
city magistrates to the custody of the
Gerry society. He could give no infor-
mation about himself excepting that his
name was Patsy, and he became a
mystery. The society has since placed
him in an institution. — New York
News.

Teddie Tucker's Two Terrapins.
The fortuitous Tiber trends through
Tuscany. To Tuscany the Tuckers tour-
ed, timely taking the train. Two truck-
men transported their trucks. Teddie
Tucker took two tremendous terrapins.
Terrible thunder told towering tempests
to tumble. Teddie, tearful, trembled to
the toes. Through the tempest, through
tunnels, too, the trusty train toiled to
Tuscany. There the track terminated.
Then the trolley transferred them to the
tavern.

Tuesday Teddie took the terrapins to
the Tiber. They, though torpid, trod
the turf. There tired toilers tote twigs,
trying therewith to chase temporarily
the tumbledown tenements; tricky trad-
ers tram; ferriers, tormenting tame fab-
bles, toss them topsy turvy; tree-tods
tenuously trill their treble tones; tulips
thrive.

Teddie tightly tied the terrapins to
trees, then toying, tiptoeing, tried to
touch the Tiber, twice, thrice; then,
toppling, tasted the Tiber.

"Tommy Tinker!" Teddie thundered.
Thomas Tinker, Tuscany's tailor,
thinking Teddie troubled, therefore
tramped to the Tiber. Thomas threw
the tape that tied the terrapins to Ted-
die.

"There, Teddie, take the tape."
The twisted tape, tangled, tore Ted-
die's thumbs. The terrapins thereupon
tenaciously took Teddie's trousers 'twixt
their teeth. Thomas tugging, took the
tape. This together they triumphantly
transported Teddie to terrapins.

"Twas twilight. Trifling takes time.
Thankful Teddie trudged to the tavern
to the teatable. Toast, turkey, truffles,
tomatoes, trooped through Teddie's
throat. Tired Teddie then trotted to
sub-thence to Tiber. Thursday the
tourists traveled to Toulon.

The Tiber trails through Tuscany,
crouching through thrifty towns. The terrapins,
transferred to the Tiber, tarry there to-
gether. — Sarah Fenton Hoyt in Youth's
Companion.

No Cause For Enmity.
"That's very nice," said the specta-
tor. "I am glad to see those two politi-
cians go out of the room arm in arm,
chatting pleasantly."

"There is nothing very extraordinary
about that."

"But from what I have read I sup-
posed that they were antagonists and
rivals."

"Oh, yes, they are antagonists and
rivals! But that is no excuse for their
hating each other. They don't belong
to the same party." — Washington Star.

In a case before a London magistrate
the question was as to the ownership of
some antique ormolu articles, and two
workmen, who stoutly claimed the ar-
ticles, said that they "made" them. To
prove their assertion, they set to work
in court and showed how ormolu was
made "antique" with pumice powder.

The Spartans had an iron coinage, no
other being allowed.

A fine little home on Dwight way, two blocks from electric and four from local station. Lot 40x130, paved street, house of four rooms and basement, with well, chicken house, etc. Only \$850. Easy terms. Yesterday, while an unknown gentleman was in the store of Durgin and Bleakley, looking at matting, Leo, Mr. Durgin's dog, rushed at him and bit his arm severely. The Marshal is asked to do away with the dog, and he has notified Mr. Durgin to keep the dog tied, or it will be shot.

The many friends of Miss Bertha Kethem will be glad to hear of her improved condition. Some months ago she was taken to her home, in Salem, Oregon, with a seriously affected knee, since which time she has been compelled to wear a brace, but it has now been possible to discard this, although some time must elapse yet before she is able to walk without crutches.

Many persons cannot take plain cod-liver oil. They cannot digest it. It upsets the stomach. Knowing these things, we have digested the oil in Scott's Emulsion of Cod-liver Oil with Hypophosphites; that is, we have broken it up into little globules, or droplets. We use machinery to do the work of the digestive organs, and you obtain the good effects of the digested oil at once. That is why you can take Scott's Emulsion.

HEALTH CATECHISM.
To Be Committed to Memory by All Dyspeptics, Invalids, Consumptives.

What is the first cause of nine-tenths of all disease? Imperfect digestion of food. Why does imperfect digestion cause disease of other organs? Because blood, muscles, bone and flesh are derived from the food we eat and digest. If digestion is perfect the blood is pure, nerves and muscles strong, flesh firm. If the digester is poor, the blood is supplied from half-digested, fermenting food, irritating every nerve and organ. The result is, sooner or later, organic disease, because every organ being poorly nourished the weakest gives way first and we have liver trouble, kidney complaints, heart disease or consumption.

Is not dieting the usual and best treatment to cure indigestion? No, because the dyspeptic has been starved long enough; what is needed is abundant nourishment, not the lack of it. The stomach and blood demand nutriment, not bread crackers.

What is the best method of cure? Plenty of wholesome food well digested.

But how can a weak stomach digest plenty of wholesome food? By taking with the food after each meal certain harmless remedies which are known to digest food and thus nourish the blood and rest the weak stomach.

What are these harmless remedies? The most valuable are vegetable arguments, pure pepsin, Golden Seal and fruit salts. All of these are now combined in the form of pleasant tasting tablets sold by druggists under the name of Stuart's Dyspepsia Tablets.

Are these tablets superior to the various liquid preparations so called dyspepsia cures? Most decidedly, because all liquid medicines become stale with age and lose whatever good qualities they may have had originally, while the tablet retains its properties indefinitely. Stuart's Dyspepsia Tablets can be carried in the pocket, always at hand ready for use when traveling or at daily occupation. They cost but 50 cents, and should be kept in every family. They keep the digestion perfect and save doctor's bills by warding off disease.

Are Stuart's Dyspepsia Tablets adapted to all forms of dyspepsia? Yes, because in all cases the trouble results from indigestion, fermenting food. Stuart's Dyspepsia Tablets cause the food to be digested before it has time to ferment.

If you wish to know more about them ask your druggist for a package and try them.

Fire at Lorin.
About one o'clock a. m. yesterday fire broke out in the home of P. Powers and before help could reach there it had communicated to a paint shop, next door and from there to a two-story house owned by Mission Lodge E. A. M. of San Francisco. The three buildings were a total loss. Berkeley Fire Department did not respond because it was just over the line and therefore Oakland fire company ran out. Parties from San Francisco had been looking at the house belonging to Mission lodge and came over this morning to make a deposit, only to find the house in ashes. A defective flue is reported to be the cause.
